## SUMMARY

Web Developer with 1 year of experience working with React.js and Next.js. I work in an organized and collaborative manner, always focused on delivering real value to the team. I continuously improve my skills by learning new technologies and staying updated with the latest trends in the digital market.

## TECHNICAL SKILLS

### FRONT-END

React.js (React), Next.js, Vite, TypeScript, JSX, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

### BACK-END

Supabase (Auth, SQL, AWS, Hosting), Firebase (Auth, Firestore, Hosting)

### TOOLS

Git, GitHub, Vercel, Jest, React Testing Library, Figma, REST APIs

## EXPERIENCE

### **DOGTOWN BREW – Ribeirão Preto, Brazil — Web Developer** (May 2025 – Sept 2025)

- Developed a fully responsive layout using HTML, CSS, and JavaScript.
- Implemented a fully functional shopping cart.
- Created CRUD operations using Firebase.
- Integrated Instagram widgets into the website.

## EDUCATION

### **- Front End Development Libraries – FreeCodeCamp (Jul 2025)**

Hands-on projects with React, Redux, Bootstrap, jQuery, and SASS, building responsive and interactive web applications.

### **- JavaScript Algorithms and Data Structures – FreeCodeCamp (Feb 2025)**

Practical experience with JavaScript, covering data structures, algorithms, functional programming, object-oriented programming, and DOM manipulation.

### **- Responsive Web Design – FreeCodeCamp (Jan 2025)**

Developed responsive layouts using HTML and CSS, including Flexbox, Grid, and accessible design techniques.

## PROJECTS

- **Dogtown Brew** — [dogtownbrew.com.br](https://dogtownbrew.com.br)  
Full website developed for a brewery in Ribeirão Preto, Brazil.
- **Portfolio** — [luizmura.github.io/Profile/](https://luizmura.github.io/Profile/)  
Personal portfolio built with React.js, Vite, and Tailwind CSS.
- **Weather App** — [luizmura.github.io/Weather-App](https://luizmura.github.io/Weather-App)  
Weather application developed using React.js, Vite, Tailwind CSS, and the OpenWeather API.
- **Task App** — [luizmura.github.io/Task-App](https://luizmura.github.io/Task-App)  
Task manager built with React.js, Vite, Tailwind CSS, and JSONPlaceholder as a mock data source.
